

MAYANK KUMAR YADAV

B.Tech 1st Year - Electronics & Communication Engineering

Semiconductor Specialization with TrueChip | JECRC University, Jaipur

Phone: +91 9138001940 | Email: mayank19ky@gmail.com | Location: Rewari, Haryana, India

LinkedIn: linkedin.com/in/mayank-kumar-yadav-b8158b273/ | Portfolio: Online

ACADEMIC PROFILE & OBJECTIVE

Passionate first-year ECE student specializing in Semiconductor Technology & VLSI in partnership with TrueChip. Actively developing foundational skills in circuit design, C/Python programming, robotics, and artificial intelligence. Driven by a deep interest in microchip architecture, open-source innovation, and deeptech entrepreneurship with an ambition to build high-impact hardware-software systems.

EDUCATION

B.Tech in Electronics & Communication Engineering - Semiconductor Specialization

JECRC University, Jaipur | In Collaboration with TrueChip | 2024 - 2028 (Expected 2030)

- Specializing in VLSI design fundamentals, digital logic, and semiconductor fabrication principles

Senior Secondary Education (Class XII - CBSE)

SD SR SEC School, Kakrala, Mahendragarh, Haryana | Science Stream (PCM)

Secondary Education (Class X - CBSE)

SD SR SEC School, Kakrala, Mahendragarh, Haryana

TECHNICAL SKILLS

Core Electronics: Electronics Fundamentals, Circuit Analysis, VLSI / Chip Design (Foundational), Embedded Systems

Programming: C, Python, HTML5, CSS3, JavaScript, Modern Web Development

Emerging Tech: Artificial Intelligence, Generative AI Models, Google AI Certified

Tools & Other: Git/GitHub, Linux Basics, VS Code, Robotics Prototyping (Learning), Digital Productivity

FEATURED PROJECTS

1. Personal Silicon-Themed Engineering Portfolio

- Developed a responsive, dark-mode personal website using React, Vite, and Tailwind CSS.
- Features semiconductor-inspired styling, circuit schematics, live project showcases, and contact hub.

2. AI-Powered Assistant Web Application

- Designed an interactive web interface integrating generative AI capabilities for automated tasks.

3. Student Productivity & Academic Workflow Suite

- Built a lightweight system for tracking engineering coursework, lab milestones, and project goals.

CERTIFICATIONS & INTERESTS

- Certification: Google AI Certification - Foundational AI, ML Principles, and Generative AI Concepts

- Interests: Competitive Hackathons, Robotics & Sensor Interfacing, Chip Startups & Entrepreneurship
